

SANGEETHAPRIYA S

Python Developer

ssangeethapriya94@gmail.com ||8778184099 || [LinkedIn](#) ||Tindivanam

SUMMARY

Aspiring and motivated Python Developer seeking opportunities to start my career in IT. Passionate about building user-friendly web pages, learning new technologies, and supporting business growth with the technical and marketing skills. Eager to apply my problem-solving abilities, passion for learning to real-world projects while contributing to organizational growth.

SKILLS

Programming Languages: Python, JavaScript

Front-end technologies: HTML5, CSS, JavaScript, React.js

Framework: Django (Routing, Templates)

Database: SQL

Tools & Platforms: VS Code, PyCharm, GitHub, Canva,

Soft Skills: Communication, Decision Making, Conflict Resolution & Active Listening

PROJECTS

ONLINE EXAM PORTAL

- Built a full-stack Online Exam Portal using React.js and Django for efficient exam management.
- Implemented authentication and built RESTful APIs for seamless frontend-backend integration.
- Designed login system with separate dashboards for admin and students.
- Engineered automatic score evaluation and result display with a responsive user interface.
- Built a module for admin to generate important questions from syllabus.
- **Tech Stack :** HTML, CSS, JavaScript, React.js, SQL, Django

PRODUCT INVENTORY MANAGEMENT SYSTEM

- Built a FastAPI-based REST API to manage high-volume inventory data with optimized query handling
- Implemented full CRUD operations for real-time stock tracking and updates
- Integrated MySQL with structured validation to ensure data consistency and reliability
- Improved data retrieval efficiency and reduced response latency through optimized queries
- **Tech Stack:** React, Bootstrap, JavaScript, FastAPI, Python, MySQL, SQLAlchemy

SMART SAFETY SYSTEM FOR COAL MINES:

- Designed and developed an IoT-based Smart Safety Monitoring System for coal mine workers with a focus on real-time monitoring and automation.
- Developed a responsive **frontend** dashboard for live data visualization and monitoring. Implemented a face recognition-based attendance management system using **Python** and **OpenCV** for automated worker identification and tracking.
- Integrated ESP32 and sensor modules using **Arduino IDE** for environmental and worker safety monitoring.
- Utilized BLE and LoRa technologies for reliable wireless communication and real-time data transmission.
- **Tech Stack:** Python, OpenCV, HTML, CSS, JavaScript, Arduino IDE, ESP32, BLE, LoRa,IoT.

Education

Bachelor of Electronics and Communication Engineering University College Of Engineering Kanchipuram, Kanchipuram. CGPA: 8.23%	2022-2026
---	------------------

Holy Angel Matric Higher Secondary School Percentage: 89%	2021-2022
---	------------------

CERTIFICATION

PythonFullStackprogramming SAWIT.AI Learning program SQL	Besant Technologies GUVI[21-09-2024] Besant Technologies
